BERKAY ACAR
FULLSTACK DEVELOPER

Istanbul, Bostancı | acar.berkai@gmail.com | +90 554 428 04 04 | Portfolio

Full Stack Developer with 4+ years of experience in designing and implementing scalable web and mobile applications using **React, .NET Core, and Flutter.** Specialized in building enterprise-level e-commerce and B2B solutions leveraging **nopCommerce** to streamline field operations and digital sales. Proven track record in optimizing operational efficiency, including a 75% reduction in paperwork through digital wallet solutions. Expert in **MVVM/MVC architectures, RESTful API integration**, and modern state management tools like **Zustand and Riverpod.** Strong collaborator in **Agile/Scrum** environments with a deep focus on **UI/UX** design and end-to-end product delivery.

TECHNICAL SKILLS

Frontend: React, JavaScript, TypeScript, HTML5, CSS3, SCSS
Backend: .NET Core, C#, RESTful APIs
Mobile: Flutter, Swift Database: MSSQL, SQLite, PostgreSQL, Hive, Firebase Realtime DB
Architecture: MVVM, MVC, SOLID, Atomic Design
Cloud & DevOps: Azure DevOps, GitHub, GitLab, CI/CD with Firebase App Distribution
Tools & Libraries: React Query, Zustand, Axios, GetX, Provider, Riverpod, Dio, EasyLocalization, GoRouter, Firebase Auth, Crashlytics
Others: SAP CX(Hybris), Agile/Scrum, UI/UX Design, Figma, Adobe XD, Copilot, Cursor, Windsurf

PROFESSIONAL EXPERIENCE

Software Developer – Düzey   Nov 2023 - Present

- **Architected and deployed** cross-platform **B2B and SFA** mobile applications using **nopCommerce**, **.NET Core**, **React**, and **Flutter**, leading to significant improvements in field operation efficiency.
- **Spearheaded** the development of **UniCoWallet**, a digital wallet and expense management application that **reduced paperwork by 75%**
- **Engineered and launched** a comprehensive **Fleet Tracking System**, enabling real-time vehicle monitoring and data-driven logistics management.
- **Developed a dynamic Approval Management System** to centralize and automate field-originated requests, featuring a custom **Backoffice dashboard** for real-time process tracking and end-to-end workflow **traceability**.
- **Executed end-to-end development** by integrating **.NET-based microservices and RESTful APIs**, ensuring seamless frontend and backend synchronization.
- **Led UI/UX design initiatives** for high-traffic projects, prioritizing **mobile responsiveness** and user-centric accessibility.

Jr. Developer – Düzey   Nov 2021 – Oct 2022

- **Optimized SAP ERP and SFA (Sales Force Automation) workflows** by identifying bottlenecks and implementing strategic process improvements, leading to enhanced operational efficiency.
- **Boosted overall team performance** metrics by **40%** through the integration of streamlined digital processes and internal tool optimizations.
- **Collaborated on the modernization of legacy business logic**, ensuring seamless data flow between **SAP** systems and mobile sales applications.

Intern Developer – Başarsoft   Jun 2021 – Sept 2021

- **Developed interactive map applications** using **JavaScript** and **OpenLayers** to visualize complex **geospatial data**

EDUCATION

- Computer Programming – Piri Reis University
- Management Information Systems – Anadolu University

ADDITIONAL INFORMATION

Languages: English(Native / Bilingual), Turkish(Native / Bilingual), Russian(Elementary).
Certifications: SAP Commerce Cloud Development | Java & Spring Web Development | Angular | IIBA® Business Analysis | Scrum INC. Agile | Flutter, Dart, UI/UX Design (Udemy)
Awards/Activities: Sahne Senin – Digital Transformation Contributor (Düzey, 2022), Sahne Senin – Team Collaboration Award (Düzey, 2024), Led mobile and web app launch processes for multiple in- house products, ensuring successful rollout on Google Play and App Store.
